

GOOGLE ADS PACKAGES – INFORMATION PACK

Are you wondering if Google Ads can work for your business?

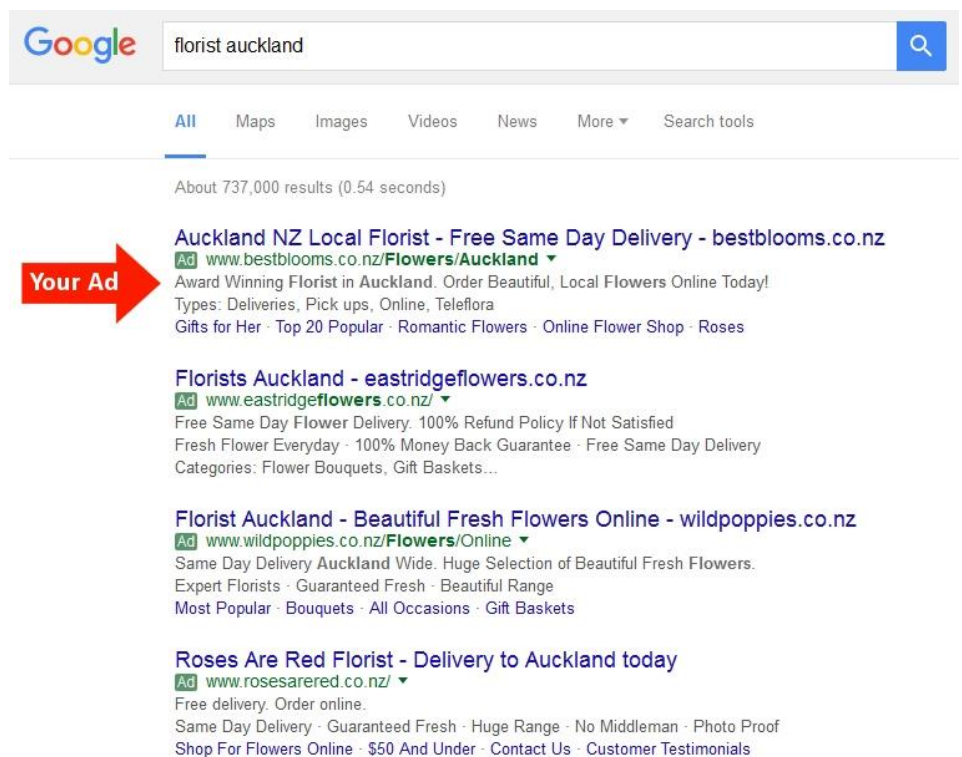

Google Ads is hands down the fastest way to get traffic to your website and start making more sales. Nothing comes near it.

Google Ads can get you to the top of Google search results almost instantly. (And if you don't show up on Google when people search for what you're selling, you may as well not exist at all.)

But Google Ads has a few pitfalls

As a small or medium-size business owner, you might think you can manage your own Google Ads account, or get one of your staff to do it. But you'll soon find Google Ads is complex. You may well give up in frustration because you are not getting results.

Or, you might already have engaged a web marketing agency to manage your Google Ads account. But you've found the return on investment to be marginal. Or you might have even lost money. If so, please keep reading - because we have some good news for you!

At Click Media, we **GUARANTEE** your Google Ads account will be profitable within 45 days

Our promise to you as a client

When we manage your Google Ads account, we will give it everything we've got and use every ounce of marketing skill and experience to help you get the maximum returns possible.

Furthermore, we will give you a **MONEY-BACK GUARANTEE....**

Your Google Ads will be profitable within 45 days

Most clients we work with make a profit on their Google Ads account within 45 days (usually less). If an account is not profitable, the reason is usually a more fundamental issue with the business e.g. their pricing might be wrong, their customer service might be poor etc.

Usually we can tell before we engage with a client whether there are more fundamental issues in the business, which might render Google Ads unprofitable. In that case, we will be upfront and recommend you don't go ahead with Google Ads.
